## Preface

**Slave Manumissions for Frederick County Maryland were abstracted from land records covering the period from 1748-1867. Names have been placed in alphabetical order by slave name and then by slave owner. The index covers the various names found in the Freedom column. Very few names were located for the early period of Frederick County. Prior to 1776 Frederick County Maryland included Montgomery, Washington, Allegany and Garrett Counties along with portions of Washington D.C. Frederick County also covered the western portion of Carroll County prior to its formation in 1837.**

**In the age column the information can range from no date, age of slave to a birth date. The manumission date is the date the document was made. Freedom column information ranges from actual freedom date, term of service, military unit, family relation, to whom married, to whom bought from or where sent. Owner column information ranges from the actual owner, husband of the slave, father of the slave or a relative of the slave. Deed book column refers to the deed book from which the information was found. Always refer to the deed books, which are online and easily accessed, to verify the information.**

**A further explanation into some aspects of the information. Slaves were bought by a parent or family member to secure their freedom. Some slaves were required to move to another state at freedom while others were sent to Cape Palmes Liberia. A detailed explanation of slave movement to Liberia can be found “Maryland in Liberia”: A History of the Colony Planted by the Maryland State Colonization Society under the Auspices of the State of Maryland, U.S., at Cape Palmas on the South-west Coast of Africa, 1833-1853. ROCT (Regiment of Colored Troops) shows that a slave was freed and joined the Union Army during the Civil war.**

**It is hoped the information gathered will provide a link or clue showing family relations from present day to the days a person only had a first name.**
