

Frederick County Maryland
Deed Index 1748-1803

Jeffrey A. Duvall

Preface

Frederick County Maryland Land Records Index to Names is a listing of names covering the period of 1748-1803. Placing the surnames in alphabetical order will bring into view family relation groupings along with the date range for ease of use. A list of Liber/Book numbers is provided showing the date range of the various books. Listings showing a number only are found in Liber WR series books which covers the time period of 1778-1803. Due to the large number of entries and the book size this would generate no deed page numbers are listed.

The master deed index in which these records are found is a later transfer of names from the original deed books. Since these names were transferred at a later date the interpretation of the names can come into question (Ex. Snavely has many variations in spelling). Deed index & deed records for Frederick County Maryland can be accessed at MDLANDREC.NET. If a name of interest is found refer to the index book number listed to judge the name. To further confirm the name go to the deed listed and view the information. Take note to look over the all the names in the index pages as the Book/Liber numbers are at times out of sequence. Also be aware there are two indexes for years 1748-1778. The second index begins on page 410.

Keep in mind that prior to 1776 Frederick County Maryland included Montgomery, Washington, Allegany and Garrett Counties along with portions of Washington D.C.. Frederick County also covered the western portion of Carroll County prior to its formation in 1837. The list also serves as a census for the early formation of the western Maryland. The listing may be the only time an ancestor's name shows up in Maryland. Migration to the mid west is clearly taking place especially after the French and Indian War. Another migration movement taking place is from Pennsylvania to the southern states.

Much information is contained within the deeds. Information can range from where the person came from, where they went, occupation, relatives, wife's name, children's name, death dates, executors, family burial lots and improvements such as a mill. It is hoped the information will provide the location of an ancestor within the county or at least give clues to an ancestor's family, relatives and friends after landing in the "New Country" or migrating from other areas.

Note: Not all names are listed. Some index pages partially remain while others are completely missing. Reading the names listed is also an issue due to the writing styles. Check the index page for any names which were missed.
